Sprialis Consulting Fact Sheet

F03   CLICKER 7

Clicker 7 is the award-winning literacy tool that enables students of all abilities to develop their reading and writing skills. Clicker enables students to learn and progress within an intuitive and supportive environment tailored to their individual needs and preferences. It is the literacy tool of choice in the mainstream or special education setting.

Clicker 7 assists emergent, developing and struggling readers and writers. Its accessibility features support students with additional needs including dyslexia, autism, physical impairments, speech and language impairments, cognitive challenges and low vision. The new version includes voice notes, children's voices to read back text and the Dyslexie font.

The word processor includes intelligent word prediction support and access to word banks, pictures and phrases to complete a literacy task. Access an overview of the program and a download link of a 30-day trial version at http://www.cricksoft.com/uk/products/clicker/home.aspx

Clicker 7 is now totally integrated with the Clicker iPad apps. The Clicker App collection is described in the Start Sheet 'F04 Clicker Apps'.

Jim Sprialis has been an official Crick Connect training partner for over ten years. He has an in-depth knowledge of all versions of Clicker and how this program can be utilised in innovative ways to engage all students in their learning. His original Clickerpedia web site is still accessed by Clicker users from around the world.

Jim Sprialis is a leading influence in the field of technology and inclusion. During the past 12 years he has worked with hundreds of schools and organisations to provide advice and support with their implementation plans. Jim has initiated numerous research projects and regularly presents at state and national conferences.
