

# Sprialis Consulting Fact Sheet

## F04 CLICKER APPS

---

The collection of Clicker Apps utilise powerful assistive features and learning design elements to support students with a range of literacy tasks. Each of the Clicker Apps features a key aspect of Clicker 7. For information related to the software version, please refer to 'SS03 Clicker 7'.

Clicker Sentences creates differentiated sentence building activities on any topic. Swipe to go between sentences to access all the words required to build each sentence with a tap of the finger. Utilise your own images to personalise activities.

Clicker Connect enables young learners and struggling writers to take first steps to independent writing. Create a sequence of pages that contain words and phrases to build sentences and compose coherent text.

Clicker Docs transforms your iPad into a portable word processor that provides differentiated support for students of all abilities. Struggling writers can build their confidence with access to text to speech, word prediction and vocabulary support for topic words.

Clicker Books enables students to create their own talking books containing pictures, text and voice recordings. Picture and word banks can be created to support text composition.

Access an overview, detailed information and a comparison chart of the Clicker Apps at <http://www.cricksoft.com/uk/products/clicker-apps.aspx>

Jim Sprialis has been an official Crick Connect partner for over ten years. He has an in-depth knowledge of all versions of Clicker and how this program can be utilised in innovative ways to engage all students in their learning.
