Sprialis Consulting Fact Sheet

F09   LIVESCRIBE DIGITAL PEN

What is it?

The Livescribe Smartpen is a multimodal capturing tool. The camera built in to the pen records and stores every pen stroke. The audio capture feature can be activated to record audio while you write. The pen strokes are synchronized to the captured audio. To listen to a particular point in the recording, just tap the pen on a word or illustration in the Livescribe book and it instantly plays back the audio recorded at that point in time.

Send your notes in to the digital world

Synchronise your notes with a range of connections to send them to an iPad, a computer, or to an online service such as Dropbox, Evernote or OneNote. Instantly share notes via email or social media. Once in a digital space, your notes can be replayed in multimodal fashion. This makes it an invaluable tool to review traditional notes or recordings of more abstract content including mathematical concepts and diagrams. Livescribe pens are an ideal tool to assist educators create and share inclusive instructional content that can benefit all students in the class.

Three Livescribe pen models available –Echo, Wi-Fi and Livescribe 3.

Information about the three different Livescribe models can be found at
http://www.livescribe.com/au/smartpen/

Which model suits my purposes?

Jim Sprialis has used Livescribe pens for a number of years. He has conducted school based action research projects with the Livescribe Echo pen and views this tool as an essential requirement in every classroom. Both the Echo and the Livescribe 3 are recommended for the tertiary and workplace setting. Please contact Sprialis Consulting for further advice.

Jim Sprialis is a leading influence in the field of technology and inclusion. During the past 10 years he has worked with hundreds of schools and organisations to provide advice and support with implementing inclusive technologies. Jim regularly presents at state and national conferences.

Overview

A multimodal capturing tool with content recorded on paper able to be exported to the digital world.

Benefit

Accurately recorded information that can be viewed and reviewed as often as needed to support memory retrieval and comprehension.

Suitable for:

Primary/Secondary

Tertiary

Workplace

Platform

Sprialis Consulting offers training and support in digital pen technology
